

FIRMS*That Helped
To Build It***THE NEW
CITY MARKET****FIRMS***That Will Oc-
cupy It***Thoroughly Good
HARDWARE**

is being used more often than ever before

Especially In El Paso

You will build or buy a home some day and should learn what good hardware is.

Begin the study now by carefully inspecting that furnished by us to

**THE NEW
City Market**WE ARE FURNISHING THE HARDWARE
FOR FOUR OF THE SIX LARGE
BUILDINGS NOW UNDER
COURSE OF CONSTRUCTION IN EL PASO.**SHEPERS LAZENBY CO.***To The Citizens of El Paso:*

WHEREAS, the City of El Paso having for many years needed a public market, certain citizens, with the true interest and civic pride that marks an El Pasoan, have constructed at considerable cost a public market to be conducted by private citizens, but under the supervision of the City, and which market is located on the half block between San Antonio and Overland Streets on South Florence.

This market will be formally opened and dedicated on Monday afternoon, September 18th, 1916, and All Citizens of El Paso, and Especially the Ladies are invited to come and inspect said market between the hours of three and five of said day.

This being an enterprise in which the public is deeply interested, the City requests all citizens to come and view said public market on said day, and show their appreciation to the men who have made it possible for the City of El Paso to have a clean and sanitary public market, under the control of the City of El Paso.

Witness my hand, this 14th day of September, 1916.

TOM LEA,

Mayor.
